SUMMARY

The pattern of declining enrollment of first-time freshmen continues to be evident in fall headcount enrollments in Nebraska institutions of postsecondary education. A decrease of 2,259 full-time freshmen over a five-year period was reported, 15,488 in 1981 as compared to 13,229 in 1985, a 14.6 decrease.

A trend in the relationship between full-time and part-time students should be noted for the same period. In 1981, full-time students represented 61% of the total headcount enrollment. In 1985, that percentage had dropped to 58%.

Total headcount enrollment decreased by 160 students this past year, from 97,914 to 97,754, marking the first time that institutions have reported a decreased from the previous year according to records dating back to 1976.

Undergraduate enrollment decreased by 518 over the past year from 85,425 to 84,907, a decrease of less than one percent. Graduate enrollment increased by 372 students, from 9,731 to 10,103 (3.8%); while first-professional students decreased by 14, from 2,758 to 2,744, a decrease of less than 1%.

The number of women now represents 52.3% of the total enrollment.

Total headcount enrollment for the University of Nebraska decreased over the past year by 597 from 40,760 to 40,163; full-time students decreased 544 from 27,465 to 26,921; part-time students decreased 53, from 13,295 to 13,242; graduate students increased 35, from 6,297 to 6,332; and first-professional students decreased 88, from 1,494 to 1,406.

State Colleges reported increases in every category. Total headcount was up 689, from 14,186 to 14,875; full-time increased 553, from 9,186 to 9,739; part-time increased 136, from 5,000 to 5,136; and graduate enrollments increased 301, from 2,860 to 3,161.

Technical Community Colleges reported major increase in total and part-time enrollment and a decrease in full-time students. Total headcount was up 395, from 25,730 to 26,125; full-time was down 190, from 8,561 to 8,371; and part-time up 585, from 17,169 to 17,754.

Independent Colleges and Universities reported decreases in total headcount, full and part-time students and increased enrollment in graduates and first-professional. Total headcount was down 647, from 17,238 to 16,591; full-time was down 587, from 12,297 to 11,710; and part-time down 60, from 4,941 to 4,881. Graduate enrollments were up 36 from 574 to 610 and first-professional enrollments were up 70, from 1,264 to 1,334.

PREFACE

The headcount enrollment data in this report were reported by the Nebraska institutions of postsecondary education as part of the Higher Education General Information Survey (HEGIS). The HEGIS enrollment report is one of a series of reports which institutions file with the National Center for Education Statistics of the U. S. Department of Health, Education and Welfare each Fall. The Nebraska Coordinating Commission for Postsecondary Education coordinates the distribution of the HEGIS reporting forms to the institutions and the collection and return of completed reports to the National Center for Education Statistics (NCES).

The data in this report (enrollments for Fall 1981 through 1985) were taken from the following HEGIS reports.

Fall 1985:	"Fall Enrollment in Institutions of Higher Education - 1985"
Fall 1984:	"Fall Enrollment and Compliance Report of Institutions of Higher Education - 1984"
Fall 1983:	"Fall Enrollment in Institutions of Higher Education - 1983"
Fall 1982:	"Fall Enrollment and Compliance Report of Institutions of Higher Education - 1982"
Fall 1981:	"Fall Enrollment in Institutions of Higher Education - 1981"

The Commission wishes to acknowledge, with great appreciation, the cooperation and time the institutions devoted to reviewing and verifying the data contained in this report.

This report is being printed on microfiche.

DEFINITIONS

(The following definitions are those prescribed by the United States Department of Education and used by the institutions in preparing the HEGIS data presented in this report. They should, therefore, be incorporated into any analysis or interpretation of the report.)

UNDERGRADUATES. Students enrolled in an associate or bachelor's degree program, or in a vocational or technical program that is normally terminal and results in formal recognition below the baccalaureate degree.

FIRST-TIME FRESHMEN. Entering freshmen who have not previously attending ANY college. Include students enrolled in the fall term who attended college for the first time in the summer of 1984. Also include students who entered with advanced standing (college credits earned before graduation from high school) at the freshmen level.

UNCLASSIFIED STUDENTS. Not candidates for a degree or other formal award, although taking courses in regular classes with other students.

> UNDERGRADUATE LEVEL OF UNCLASSIFIED STUDENTS. Includes but not limited to undergraduates who cannot be classified by class standing, for example, new transfer students. Also included are students who already have bachelor's degrees or awards below the baccalaureate degree, but are taking courses at the same level or lower. Included also are "special students" and teachers taking additional undergraduate courses for certification.

FULL-TIME STUDENTS. Those whose academic load (course work or other required activity) is at least 75% of your institution's normal full-time load.

FULL-TIME EQUIVALENT (FTE) ENROLLMENT OF PART-TIME STUDENTS. Convert part-time students (lines 15-28) into full-time equivalents by one of the following:

(1) Use a method already employed in your institution to compute FTE's for some other purpose.

(2) Sum the credit hours for part-time students and divide by the normal full-time credit-hour load. NORMAL FULL-TIME CREDIT-HOUR LOAD is usually determined by dividing the total number of credits required for completing the program by the institutionally defined length or program in terms, or by the number of terms required of a fully-engaged student to obtain such credits. Do not confuse this with the minimum number of credit-hours required for a student to be classified full-time (75% of a normal full-time load). NOTE: Divide by the normal full-time load, not by the minimum full-time load. For most institutions, this will be 15 credit-hours (not 12).

(3) Assign a fractional value of full-time to each part-time student, appropriate to your institution, such as 1/4, 1/3, or 1/2. Remember that a student taking 3/4 (75%) or more of a normal full-time load should be classified as a full-time student.

INTRODUCTION

Fall headcount enrollment reporting is only one of several types of enrollment that might be used in analyzing patterns at the institutional, sector, state or national level. Depending upon the question being asked, the following counts might be appropriate: fall headcount, unduplicated headcount over a fiscal year, full-time equivalency, etc. Each type of enrollment count tells the reviewer something different about the statistics.

Fall headcount enrollment is normally used as an indicator of trends among and between institutions. The fall period is the time in which traditional collegiate institutions experience their peak enrollment period. Thus, by comparing one fall enrollment period with another, the reviewer can get a general understanding of whether the enrollments are increasing and the postsecondary educational enterprise is expanding, or whether enrollments are decreasing and the enterprise is contracting. Changes in student enrollment patterns also may be inferred from fall headcount statistics.
